Education

IES. César Manrique, Arrecife - Medium Level Access Test.

IES. Haría - Medium Level Computer Science Course.

IES. Haría - English Level B1 Exam.

CIFP. Zonzamas, Arrecife - Higher Level Web Application Development.

During my education and internships, I have acquired skills in the following areas:

- Object-Oriented Programming (OOP): Advanced knowledge of OOP mainly applied in PHP and Python, developing robust and maintainable applications.

- Frontend Development: Proficiency in HTML, CSS, and JavaScript for creating attractive and functional user interfaces.

- Frameworks and Libraries: Competence in using frameworks such as Laravel for developing scalable and efficient web applications.

- Backend Languages: Extensive experience with PHP during my internships, and willingness to work with other backend languages as needed for the project.

- Advanced Python: Advanced knowledge of Python, applied in both application development and data processing and automation tasks.

- Databases: Advanced knowledge of MySQL and experience working with PostgreSQL for efficient database management.

- Advanced Git: Advanced knowledge to maintain version control and teamwork development.
